INTERESTS

OBJECTIVE

I am a aspiring data scientist who is looking for an entry-level position in a data science company. I have a disciplined progressive approach to learning and problem-solving and to master my skills

EDUCATION

IIT-M Advanced Professional Programming - Master Data Science By GUVI   **2022**

BTECH BIOMEDICAL ENGINEERING   **2017-2021**
Kalasalingam academy of research and education

PROJECTS

House price prediction-Chennai

- I have made a detailed report for real-estate agents to build properties in areas which are beneficial to increase their profits.
- Based on analysis i have created a report that reflects the cost effectiveness and key factors which will increase the price of the property.
- I have trained the Machine Learning Models which includes: Linear Regression, XG Boost Regressor, Random Forest and etc...

Salary price prediction

- The model is to analyze and to predict the salary based on years of experience of a employee
- I have trained the Model to Predict the salary price of the employee with respect to their Experience.

CERTIFICATES

- IIT-M Advanced Master Data Science by Guvi
